The **exterior** design flows smoothly over into the front headlights and now creates a sharper angular expression. New contours for the BMW kidney grille and headlights immediately bordering it on either side make a striking impression. Standard equipment includes new full-LED Adaptive headlights. Newly added **BMW Laserlight**, unique in this vehicle segment, distributes light perfectly up to 650 meters. The slope-like roofline overflows with coupe elegance. More modern and cleaned up – that is the first impression of the rear with broad, muscular lines, attractive LED rear-light design and two freeform tailpipes.

**Interior** of the new BMW 6 Series justifies that this is the perfect travel companion – generously spacious with luxurious comfort and bespoke material selection. Newly designed controls on the centre console in high-gloss black look elegant. Interior trim selections enhance the luxurious appeal – BMW 630i and BMW 620d offer Natural Leather Dakota trim with fine wood trims and BMW 630d offers a refined premium option with **exclusive ‘Nappa’ leather upholstery** with diamond stitching. **Comfort Seats** offer fully electric seat adjustment with memory function on the driver as well as passenger side. Thanks to unrivalled **BMW TwinPower Turbo technology**, the petrol and diesel engines meld maximum power with exemplary efficiency and offer spontaneous responsiveness even at low engine speeds, offering **best-in-class acceleration** figures. The **eight speed steptronic sport automatic transmission** performs smooth, almost imperceptible gearshifts. For even greater driving pleasure, it comes with steering wheel paddle shifters and cruise control with braking function. The standard **Adaptive 2-axle Air Suspension** with its self-levelling feature maintains constant height irrespective of the load, providing great comfort. It offers maximum ride comfort and extreme sporting capability. Individual **electronically controlled dampers** offer exceptional precision and improve the drive and handling dynamics. The damper response settings vary according to the mode

selected with the **Driving Experience Control switch**, that allows driver to choose between different modes to suit the driving conditions - Comfort, Comfort+, Sport, Sport+ and Adaptive.

**Best-in-class entertainment features** complement the comfortable long journeys. The latest version of the **Rear-seat entertainment Professional** comprises two 10.25" touchscreen monitors with full-HD technology, a Blu-ray player, screen mirroring function and two USB ports. **Harman Kardon Surround Sound System** conjures an engrossing treat for the ears.
