Space for VIN emboss/Takedown

Remarks

## Exterior Body

**Instructions**

1. Observe the car under bright sunlight for scratches, dents or paint deformities
2. Go section by section, starting with (a) Front (b) Back (c) Driver Side (d) Passenger Side (e) Roof
3. While inspecting any section, ensure that you open doors/boot/bonnet to inspect paint deformities, scratches, rust etc. on the pillars, sills, hinges and other covered body panels as well, remove rubber beading if needed
4. Do not forget to check the headlights, indicators and rear lights for damages/scratches
5. The windows and rear windshield should bear the same serial number. Check for cracks and front windscreen distortion.
6. Inspect the alloys for any damages. Check the date of manufacturing on all 5 tyres.(Week Week Year Year format)

Sl No	Observations
