+ADD TO CART 

Brand: Turtle Wax

SPRAY ON A WET CAR & DRY FOR AMAZING SHINE & PROTECTION

Spray on, dry off without streaking:

Accelerates drying, prevents water spots & saves time

Synthetic Wax Polymers:

Increases depth of color, gloss & shine

Super Hydrophobic & SIO2 Polymers:

Unique blend delivers instant water beading & chemical resistant protection for months

How to Use:

1. Wash car and rinse. Skip drying, leave the car wet.
2. Shake product well.
3. Simply spray one car panel at a time while the car is still wet. A light mist of 1-2 sprays per panel will get the job done.
4. Dry and shine at the same time with a clean cotton towel or microfiber cloth.
